

STA 18/10/17

Dear Parents/Carers

On Thursday 26th October we will be supporting 'Head start for babies' and 'Young Minds' by taking part in a non-uniform day.

Students and staff are invited to pay a donation of £1.00 for wearing non-uniform and/or wearing Halloween fancy dress. There will be a prize for the best Halloween costume. **(Staff are also encouraged to take part!)**

Due to health and safety reasons, no masks or plastic weapons should be worn or carried in school.

Thank you for your continued support.

Please find additional information regarding the charities overleaf.

Yours faithfully

Mrs S Taylor
Learning Manager Year 9

Headstart4Babies is a charitable organisation which aims to raise awareness of plagiocephaly and brachycephaly. As well as heightening the profile of both conditions, They also offer support, advice and, where required and treatment to families whose babies are affected.

They also aim to educate about ways in which plagiocephaly and brachycephaly can be alleviated and to introduce the benefits of helmet therapy for babies with severe asymmetry.

Young Minds exist so that young people have the strongest possible voice in improving their mental health. They support parents to help their children through difficult times, equip professionals to provide the best possible support to the young people that they work with, and empower young people to change their world.
