HEADLINES – 2020 Leavers

Destinations (Top 2)

Most popular destination is FE College attracting 43 students (61%), an 9% increase from last year.

Second most popular destination was Sixth Form College with 19 students (27%) choosing this pathway. This is a 3% decrease from the previous year.

The anticipated NEET figure stands at 4%*. This is a 4% increase on last year's data.

Qualification Levels

Total number of Y11 students - 71

- 54% (38 students) progressed onto L3 courses (2% decrease on last year)
- 28% (18 students) progressed onto L2 courses
- 9% (6 students) progressed onto L1 courses

Providers

Doncaster College remains the dominant provider with 34% of students choosing to study there (a 1% increase from last year). New College Doncaster has become the second most popular provider with 26% of students enrolling on courses (a 6% increase on last year).

In addition to the providers already mentioned, the remaining students accessed courses and education across a further 10 providers.

Sectors

The latest Labour Market Information for East Midlands including Nottinghamshire (August 2020) confirms that the top growth industries / sectors across the area are Construction, Wholesale & Retail, Health & Social Work, Transport & Storage, Science & Technology & Manufacturing. Covid-19 will have inevitably had an impact on these sectors however the sectors of interest show that students moved into areas of study which reflect an understanding of local LMI, specifically around Construction which is the second most popular vocational pathways.

A-level subject mix will also identify if there are trends in subject selection that compliment Science, Technology and Health & Social Studies. Area to note is that the most popular vocational pathway was Public Services / Armed Forces with 14% of the overall cohort choosing to study a course in this area.

*The anticipated NEET figure is taken as a snapshot upon data collection in October 2021. Final reported NEETs may vary due to drop out after this data collection point
